

RANGE COMPOSITION

The range of Zanussi Professional baskets consists of 25 different models and has been designed to solve the diverse problems involved in the efficient washing of tableware. The internationally accepted dimensions of 500 x 500 mm and the symmetrical shapes of the baskets make them easy to handle and load from any side. The range of baskets for glasses in a tilted position consists of 9 models, varying in capacity and height of basket.

GLASSES - TILTED

ZANUSSI
PROFESSIONAL

FUNCTIONAL AND CONSTRUCTION FEATURES

- ◆ Double wall construction in polypropylene for increased strength and flexibility
- ◆ The construction material is water repellent to help deflection of the water during washing
- ◆ Extremely resistant to both detergents and high temperatures

- ◆ It is possible to stack the baskets in order to maximise the management of storage space
- ◆ Smooth surfaces and rounded corners prevent build up of dirt and ensure perfect hygiene
- ◆ The clip together modules and easy-to-fit internal structures mean that the baskets can be quickly prepared for different uses
- ◆ These baskets have a special internal structure so that the glasses are washed in a tilted position thus eliminating water residue in the glass
