Ninja Foodi AF500EU FlexDrawer Air Fryer 10.4L

Introducing the Ninja Foodi FlexDrawer, the extra-large capacity air fryer that adapts to any meal.

COOK IN 2 INDEPENDENT COOKING ZONES with Ninja's distinctive Dual Zone Technology, or remove the divider to prepare larger foods in **the 10.4L MegaZone**. You can *Airfry, Max Crisp, roast, proof, bake, and reheat*.

NINJA'S DISTINCTIVE DUAL ZONE TECHNOLOGY allows you to use 2 different cooking functions, times, and temperatures in each zone - both finish cooking at the same time!

With the SYNC function, you can enjoy freshly-cooked main courses and sides together - no need to use different appliances or let your side go cold while your main dish is cooking! You can also use the **MATCH function** to replicate the same settings across both zones.

Each 5.2L zone can accommodate up to a 2 kg chicken or up to 1.5 kg of fries.

WITH THE EXTRA-LARGE 10.4L MEGAZONE, you now have plenty of space to accommodate larger foods that you would typically cook in the oven. Simply remove the divider to transform 2 zones into one large cooking drawer. Easily fit a whole 2 kg leg of lamb with roasted vegetables. Quickly create delicious meals for 8+ people.

Up to 65% faster than regular ovens*, you can have a complete meal ready in less than half the time.

*Tested against fish fingers and sausages.
