

RANGE COMPOSITION

Zanussi Professional produces a range of combination shelves offering a practical and rational solution to all problems of storage. The entire range is highly reliable, versatile and practical. The high quality materials used (aluminium 20 micron) guarantee long life, even in critical conditions such as high humidity environments (eg. cold rooms). Their modular form and the wide range of combinations which can be obtained allow optimum use of space.

The range of linear shelves, 373 mm deep, consists of 20 models varying in length from 772 to 2935 mm.

FUNCTIONAL AND CONSTRUCTION FEATURES

- ◆ The uprights and shelf frames are constructed entirely in anodized aluminium (20 micron).
 - ◆ 4 tiers.
 - ◆ The complete shelving system allows rapid and easy fixing of the shelves to the uprights (in 5 minutes, 1 man can assemble a 4 tier-shelf).

- ◆ 1/1-1/2-1/3 GN can be inserted into the frame.
 - ◆ Shelves made by section of polyethylene tablets.
 - ◆ The sectional Polyethylene shelves are dishwasher safe.
 - ◆ Height adjustable feet
 - ◆ All models comply with the more strict international hygiene and cleanability standards.
