

Declaration of compliance

Item number: 55005
Item name: Pad Holder - Floor Model, 230mm, White

Business operator **Vikan A/S**
Rævevej 1
7800 Skive
Denmark
Tel.: +45 96 14 26 00

Materials: **Polypropylene with 98 % with white masterbatch 2 %**
Monomers and additives used to manufacture this grade are listed in Commision Regulation (EU) No. 10/2011 of 14. January 2011 on plastic materials and articles intended to come into contact with foodstuffs.

The polypropylene grade contains the following "dual use" additives:
Glycerol monostearat, calcium stearat and talc.

The white masterbatch contains the following "dual use" additive: TiO₂.

No monomers and additives with specific migration limit (SML) are used.

Stainless steel locking beak

No restrictions or specific migration levels

FDA: All raw materials in this product are in compliance with FDA (Food and Drug Administration in the USA) CFR 21.

General: In accordance with EU Commission Regulation no. 1935/2004 of October 2004 the product is intended for food contact. The handle can be marked with the "glass & fork" symbol on the packaging or by labeling.

The product is produced according to EU Commission Regulation no. 2023/2006 of 22. December 2006 on good manufacturing practices for materials and articles intended to come into contact with food (GMP).

Overall migration tests are made on similar products. The products meet the requirements regarding overall migration to 50 % ethanol, 3 % acetic acid and olive oil.

Food contact: No limitation

Usage temperature: Min. temp.: -20 °C
Max. temp.: 80 °C

For hygienic purposes, it is important to clean the tools regularly after use. This is to avoid contamination of work surfaces the next time your cleaning duties are performed. The method used to maintain the hygienic cleanliness of the cleaning tools varies from industry to industry, according to usage and function.

Max. wash temp.: 121 °C

Date 12th July 2011
